

Ruby on Rails Developer  
Croatia

## ABOUT ME

Proficient in collaborating within a cohesive and dynamic team, I possess a strong desire to continually expand my knowledge and advance in the field of web development. Eager to contribute to the creation of captivating web applications, I am dedicated to participating in the development of innovative projects that push the boundaries of what is possible. With a genuine passion for staying at the forefront of technological advancements, I am committed to ongoing learning and growth, embracing every opportunity to enhance my skills and make a meaningful impact in the world of web development.

## EDUCATION AND TRAINING

### Bachelor of Electronics and Computer Engineering

*Faculty of Electrical Engineering, Mechanical Engineering and Naval Architecture*

City: Split

## WORK EXPERIENCE

[ 09/2022 – Present ]

### Ruby on Rails developer

#### *Smart Pension*

I worked as developer on the most popular digital platform in UK for autoenrolment of employees pensions. (<https://www.smartpension.co.uk/>)

My responsibilities were:

- Write reusable, testable, and efficient code
- Develop new features and improve existing ones
- Carefully analyse the project and rectify the errors found in the process
- Code review

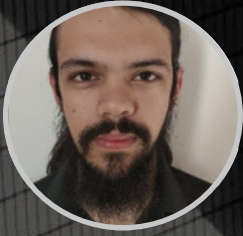

[ 10/2020 – 09/2022 ]

### Ruby on Rails developer

#### *VenuePilot*

I was working on web application that allows independent venue owners complete freedom over organising and managing events for their venue/s offering them a lot of options including ticketing(creation and sale with or without seating chart), discounts, presales, etc. It also offers users their personal calendar, team management options and numerous integrations. (<https://www.venuepilot.com/>) My responsibilities were:

- Implementing new features and upgrading old features
- Full-stack development ( JS/JQuery, React, CSS/Bootstrap alongside backend work in Ruby on Rails)
- Code review
- Collaborating with product owner and helping him with requirements for new features

## Ruby on Rails Developer Croatia

[ 02/2018 – 09/2020 ] **Ruby on Rails Developer**

### *Rubycode*

**City:** Zagreb **Country:** Croatia

Working as Ruby on Rails developer on various projects. My responsibilities were:

- Implementing new features
- Writing RSpec tests
- Managing asynchronous tasks using Sidekiq for background processing
- Deploying applications on Heroku

I have been working with a team to create and improve web applications, such as:  
**webi** - A webshop platform connecting local farmers with customers, streamlining the process of purchasing fresh produce.

**Brewery Management System:** Designed and developed a comprehensive application

for a brewery, enabling the client to oversee all aspects of their beer kegs' lifecycle. Managed processes such as washing, filling, customer assignments, and invoicing.

### **DIGITAL SKILLS**

Ruby | Ruby on Rails | RSpec | Sidekiq | Active Admin | SQL | Heroku | html/haml |  
JavaScript - JQuery | CSS | Bootstrap | React | Tailwind | JIRA | Git | API DEVELOPMENT |  
Linux | Redis
